

UPPER SADDLE RIVER POLICE DEPARTMENT

ALARM / SWIFT 9-1-1 EMERGENCY NOTIFICATION SYSTEM

The Upper Saddle River Police Department requests that all residents and businesses within the borough register their information with the police department. The information provided is kept in strict confidence and is not released to the general public. The information provided will be used by the police department in the event of an emergency at your home or business.

ALARMS:

If you have an alarm system in your home (or business) you must register the alarm with the police department as per Borough Ordinance 28-6b. Failure to register your alarm will result in a summons being issued. Once you have registered your alarm, the police department will issue you a police code. This code will differ from your code with the alarm company. The police code is used to cancel the police department should you accidentally set your alarm off in error.

If you accidentally set your alarm off you should call the police department, as well as your alarm company. If you provide the proper police code, an officer may still respond to the alarm, however you will not be charged with a false alarm. You are allowed two (2) false alarm offenses in a calendar year without receiving a summons. Upon the third and subsequent offenses in a calendar year a fine is incurred. This fine does increase with each subsequent violation.

The police department will not release any information as to the outcome of any alarm activation to any alarm company or person without providing the proper police code.

SWIFT 9-1-1 EMERGENCY NOTIFICATION SYSTEM:

The Upper Saddle River Police Department utilizes the Swift 9-1-1 Emergency Notification System in order to provide the residents and businesses within the borough with emergency information. The Police Department will call you with notifications, which may include information and any action residents should take during emergencies such as floods and hurricanes. Notifications may be sent via phone, text or e-mail. To register for Swift 9-1-1 Emergency Notification System simply complete the attached form and return it to the police department.

Upon activation of a Swift 9-1-1 Emergency Notification call, it is requested that residents do not call the police department back unless otherwise informed to do so. Calling the police department could tie up the phone lines and perhaps delay an actual emergency from being answered.

FACEBOOK:

The Upper Saddle River Police Department utilizes Facebook to get information out quickly to those who may need it. We do not intend to use it to answer questions or receive requests for things such as extra patrol or traffic issues. To receive updates "LIKE" us on Facebook.

If you have registered your alarm, your police code is _____
