

Fall Soccer registration has been and is OPEN!

If you intend to register your child for Fall Soccer, please do so immediately. (If you already registered...thanks!)

Information for each age group can be found on our website, but this year may require some adjustments due to COVID. We will know more over the coming month but are moving forward with the expectation that we will have a program. We are communicating not only with our town, but also the recreation league and other local towns in the Highlands region. Hopefully, we can provide the same product we have every other year without much impact. We will communicate any pertinent guidance as we know more.

This year, more than ever, we need to understand the number of registrations and how they potentially break up into teams or clinic sizes much sooner. **It may be more difficult than usual to accommodate late registrations - order uniforms, fill in teams, establish proper protocols, etc.** Unfortunately, we have made the difficult decision to cancel *high school* age recreation soccer as there was little interest this year across not only our town but other Highlands region towns. Please sign up your children at other ages (K-8) so that we have enough children to keep all other ages.

**Our website, [www.usrsoccer.com](http://www.usrsoccer.com), has registration information.  
SPREAD THE WORD.**

**We have added an option to secure a spot for \$10 and remaining balance is due the week before the season starts.**

If the season is impacted or cancelled before it starts, we will not collect the remaining balance due. (Anyone that has paid full price already, will have their money, minus \$10 returned, if the season is cancelled.) In event the season is cancelled midway, we will refund any prorated monies (minus expenses like uniforms or other upfront incurred expenses).

We will follow whatever government guidance is in place as the Fall season kicks off and will continue to be in discussion with our league and local towns to ensure there is alignment in plans.

On behalf of the USR Soccer Board, wishing all a healthy remaining summer,  
Frank DePierro (President USR Soccer – [info@usrsoccer.com](mailto:info@usrsoccer.com) )

Brought to you in cooperation with the USR Recreation Commission.
