

Coronavirus Update:

I regret to inform our residents that a positive case of COVID-19 has been identified in our municipality. The person is in self isolation at home and is being closely monitored. The Bergen County Department of Health Services contacted me this evening and indicated they have started contact tracing. The County Department of Health Services will contact all close contacts. All appropriate measures will be taken. For obvious reasons, personal information cannot be shared.

This is not a time to panic; however, as has been said much too frequently, please avoid all unnecessary social contact.

As we receive further information, we will continue to update everyone. Click on the below link for further information
