FILE COPY

MEMORANDUM

To:	Linda Marmora - Upper Saddle River Planning Board
From:	Chief Patrick Rotella
Reference:	PSI Atlantic USR NJ, LLC Self Storage Facility (Block 1304, Lot 7.01) 100 Route 17 North
Date:	June 3, 2020

I have reviewed the documents and drawings you provided for the proposed Self-Storage facility at 100 Route 17 North. Following a review of these items, the Police Department, at this time, does not have any traffic safety concerns associated with this project. Boswell Engineering appears to have addressed any traffic concerns in a memorandum to the developer. There are adequate traffic control devices, lane markings, lighting and a truck- turning path diagram, illustrated in the plan. These all appear adequate for the project. The proposed entrance also has been reviewed and approved by the New Jersey Department of Transportation.

As always, thank you for advising the Police Department of this project and allowing us to have input on this application.

Contact me if you should have any further questions.
